Description:

Really Not So "Great Clips!"

Keeps company-wide shared records of their customers. Adds comments about them. Including any likes, dislikes, warnings and wrongful revenge reporting by disgruntled employees who don't like a customer. Great Clips employees ask their customer's about personal matters they have no right to know about. This is a blatant disregard for their customer's privacy! I'm never going to another Great Clips \$h!t-Hole again!

Extremely Rude Store Staff And Management!

Staff here are very rude and enjoy pushing Duluth's forced 5 cent bag fee law whenever it suits them. They seem to enjoy having a form of entitlement and power over their customers with this fee too. Including me, when I last was there in March 2025. More so on my last visit, one of their female adult managers rudely barges in on and bumps me from behind too while I was shopping in one of their isles and passes me. And, she didn't even apologize for it or, say excuse me either. Instead, she chose to act like a total Classic B!tch. Then when I checked out with my items, she took over the cash register I was at and was horribly rude then too. This individual should not be working at this store and she ought to be removed from their staff. For she clearly has no people skills and it seems she out-right does not even care to have them either.

I will never ever do business here again. They are terrible here!
